

# Nestmate recognition assay

 Cassandra Vernier

Updated date: Oct 14, 2020

 An abbreviated version of this protocol was published in eLIFE in Feb 2019

The cuticular hydrocarbon profiles of honey bee workers develop via a socially-modulated innate process

DOI: [10.7554/eLife.41855](https://doi.org/10.7554/eLife.41855)
